## CAMP MERRITT RACE RIOT.

The facts regarding the race riot at Camp Merritt, N. J., of August 17, in which it was reported in an interview with Col. J. A. Marmon, commanding officer of the camp, by Walter F. White, assistant secretary of the National Association for the Advancement of Colored people. The morning papers of August 20 stated that the camp was closed to newspaper reporters and others seeking information regarding the disturbance, but the Association, in keeping with its policy of aiding the government in allaying suspicion and preventing friction between the races, sent Mr. White to obtain the facts in the case. These were given to him freely by Col. Marmon and show that the incident was no as serious as was at first supposed.

On the night when the trouble occurred two colored soldiers were ejected from Y. M. C. A. No. 2 by two southern white soldiers, when their presence was resented by the southern white men, although there is no discrimination allowed in any of the Y. M. C. A. buildings, and the colored soldiers had a perfect right to be there. As they left the building a chair was thrown at them. Previous to this incident there had been one or two minor clashes between soldiers of both races who were quartered in adjacent sections of the camp, which necessitated both using the same general street. The white soldiers involved were from Mississippi, while the colored were from Camps Dodge, Taylor, Grant and Sherman. About half an hour after the ejection of the two soldiers from Y. M. C. A. No. 2, a white soldier was cut by a colored soldier. Contrary to press accounts, he was not badly cut nor has he died. Col. Marmon stated that his wounds were so trivial that it has been unnecessary for the wounded man to apply at a hospital for treatment, or this reason they have been unable to learn who the wounded man is, nor has it been possible to learn who the assailant is.

Shortly after this occurrence, groups of soldiers of both races gathered in one of the camp streets and threats were passed. Fearing trouble, the guard was called out and orders were given to the men to disperse. The guard consisted of between thirty and forty men in charge of a sergeant. Standing at a short distance from the guard, officers of both the white and colored troops conferred as to the best method of preventing further trouble. A group of the colored troops were moving away in obedience to the command of the guard when suddenly, without a command being given, shots rang out and five of the colored men fell. The sergeant in command of the guard rushed in at once and locked up the guns to prevent further firing. One colored soldier was killed, four wounded, none of them seriously, and all will recover. The most seriously wounded of the four was a bullet wound in his groin and one of the fingers of his left hand is shot off, evidently by the same bullet. The man killed was shot in the back.

The guns of the guards were immediately examined after the shoot-

checked girl. No one can imagine the confidence I have in Dr. Myles' Heart Remedy." A. R. CANON, Worth, Mo.

## MOTORING THROUGH MISSOURI.

(Continued from Page 1.)

The Rev. A. W. Fox, who is very popular and doing a great work for his Church in this Community. We had a splendid dinner before leaving here and after replenishing our car started for Brookfield our next stop, where we arrived about 3:30. Brookfield is one of the liveliest towns apparently in that section and being the only oasis in a "dry" desert it is naturally crowded on Saturdays. From Brookfield we left for our old boyhood home and to our mind one of the greatest Cities in the world, Chillicothe where we arrived about 5:30; spent about an hour visiting relatives, friends and points of interest after which we had dinner, loaded our car and started on our last lap of the trip over the big four route to Kansas City, passing through Uteca, Braymer, Polo and Cowgill, a city founded and named in honor of our present distinguished Mayor Cowgill and then on without mishap to Excelsior Springs, where we spent about an hour with a congenial bunch of visitors who had gathered there from various sections of the country, then

on to Liberty where we had our first tire trouble which delayed us nearly an hour compelling us on account of the nature of the accident to one of the wheels of the car to limp into Kansas City, arriving at home sweet home at 2:00 o'clock Sunday morning.

Enroute to Chillicothe we stopped at the now famous little village of LaCade, the boyhood home of General John J. Pershing. We visited his old homestead and then under the guidance of our old friend Warfield who was both Pershing's pupil and boyhood companion, we went down to the little old school house where he taught the Negro children and with a memory of his sacrifice and courage and a knowledge of his present greatness all of us took off our hats and gave three cheers for General Pershing. The natives may have thought we were a bunch of "nuts" who had just escaped from some asylum but it did us good to pay this tribute to a really great American.

If you want to see Missouri in all its natural beauty as well as wonderful development do it from a motor car.
